QUESTIONS & ANSWERS

Q: I'm a Busch Gardens One- or Two-Park pass member. What does this mean for me?

A: Your 2008 Pass expired on October 26, therefore, its time to renew for 2009. With the new program, you pick your own expiration date because passes are valid for one or two years from date of purchase on regular operating days.

Q: Is Christmas included with my Busch Gardens Pass or Fun Card?

A: Christmas is a separate-ticketed event and admission is valid for one event evening only. Platinum, 2-Park and 1-Park Pass Members receive special savings on Christmas admission. Fun Card holders and all other guests pay \$19.95 for general admission tickets.

Q: Why isn't Christmas included with my pass?

A: Christmas is a separate-ticketed event that takes place after Busch Gardens closes for the regular operating season. As a pass member you will receive 50 percent off the regular admission price, paying only \$9.95 for a single-evening admission ticket, along with free parking and additional in-park discounts on food and merchandise. Your pass continues to have tremendous value throughout the year. Enjoy unlimited visits to the park during regular operating days. Ride exhilarating coasters. Watch your favorite shows. Get up close and personal with adorable animals. Your pass also gives you free admission to our expanded special events all season long, including a spectacular fireworks celebration, entertaining concerts and our chilling Howl-O-Scream event.

Q: You're not open all year. Why would I want a one- or two-year pass?

A: Correct, we are not open year round. But now that your pass lasts a full year from date of purchase on regular operating days, you decide when your season starts. That means passes retain their value regardless of its purchase date, making your One- or Two-Park Pass more valuable than ever. Plus, all active passes receive a 50% savings on the regular admission price of a single-evening admission to our Christmas event.

Q: Do you still have the option to buy passes at the 4-pack rate?

A: Instead of having the 4-Pack discount, we have decided to spread the savings out to everyone by lowering our prices. Whether you purchase one pass or four, everyone will get a great rate on our park pass.

Q: How can I save money?

A: There are two great ways for you to save.

The first way is our fantastic 1-park, one-year and two-year passes.

- Purchasing a 1-park, one-year pass at our new rate is only \$99.95.
- Purchasing a 1-park, two-year pass is \$149.95 or only \$74.97 a year.
- That's a savings of \$24.98 a year or \$44.95 over two years.
- You can even spread out payments with our EZpay option and pay as little as \$6.24 a month.

The second great way for you to save is by purchasing a 2-park pass.

- For only \$139.95 you can enjoy the best of both Busch Gardens and Water Country USA with a 2-park, one-year pass.
- If you would like a 2-park, two-year pass you pay only \$219.95 or EZpay is only as little as \$9.16 a month.

No matter which option you choose, you aren't going to be disappointed in the value of our Busch Gardens and Water Country USA passes.

Q: I just want a pass that gets me in for next year's operating season. Can I do that?

A: Yes, you are in control of your own "season." The new passes are valid for admission for one or two years from date of purchase on regular operating days. So if you want a pass that just covers all of next season, simply purchase it sometime between when we close in the fall and open in the spring. It will expire exactly one or two years after you buy it.

Q: What is your regular operating season?

A: For Busch Gardens, generally our regular operating season starts around the end of March and runs through October. Please check our website for our regular operating schedule.

Q: What is the difference between the one-year and the two-year pass?

A: This is the first time we've offered a two-year version on our one- and two-park passes. You're in control now. If you choose a one year pass, it's valid for 12 months from the purchase date. If you choose a two-year pass, it's valid for 24 months.

Q: What is EZpay?

A: EZpay is a monthly payment program designed to make Pass membership fit easily into your budget. Park passes start at less than \$10 per month.

Q: What is the difference between the 12 month and 24 month EZpay program?

A: The 12-month EZpay option is available for one-year passes, and the 24-month EZpay option is available for two-year passes. The EZpay program divides the cost of your pass into easy monthly payments, charged automatically to your credit card.

Q: What happens when my 12 or 24 month EZpay commitment ends? Do I need to renew my EZpay account?

A: You can cancel anytime you'd like after the initial term ends. If you want to continue your pass membership, we'll automatically renew your Pass on a month-to-month basis. With EZpay, you'll never again worry about your membership expiring.
